Let's kick this year in gear. Give it your heart and soul  
Let's kick this year in gear. Are you ready to rock and roll?

In with the new and out with the old.  
No sense in looking back. The future will unfold.

Last year is gone. Put it in the past.  
Those bad things that were going down you know they wouldn't last

Keep on movin' forward Babe. Your future's looking bright.  
There's nothing you can't deal with. No wrong that you can't right.

No matter what the future brings you know you mustn't fear.  
Remember that which matters most: We are all still here.

Let's kick this year in gear, kick this year in gear.

Let's kick this year in gear, kick this year in gear.

Let's kick this year in gear, kick this year in gear.

Let's kick this year in gear, kick this year in gear.

Repeat and fade.
